

December 2009

better water. pure and simple.™

Wow! The last month of 2009 already! We at Vetter's Culligan would like to wish all our customers - Happy Holidays and a prosperous New Year!

As we finish 2009, we at Culligan would like to extend a great offer to our customers! If you have had more than 3 service calls on your present equipment or would like to see if your present equipment is working up to its full potential, call your local Culligan office and talk to your problem water specialist about a no-charge evaluation of your present equipment. He will come out, at your convenience, look at the age and condition of your equipment and perform a complete water evaluation of it to make sure it is working up to its full potential.

Salt Service

Before winter arrives, you may want to consider using our salt service. The salt bags can be quite heavy and the stairs can be quite steep! Put the two together and there's potential for an accident! Part of our service too, is to check the equipment to make sure it is running on time. A little preventative maintenance never hurts and it could end up saving you big dollars in the long run! Mention this ad and receive 2 free bags of salt *** with your first delivery.
